**CLEAN VERSION OF REWRITTEN, ADDED, AND/OR CANCELLED CLAIMS PURSUANT
TO 37 C.F.R. §1.121 (c)(1)(i)**

IN THE CLAIMS:

Please replace the pending Claim with the following Claim having the same number.

2. (Thrice Amended) A reduced allergenic variant of a polypeptide of interest, wherein said polypeptide of interest is selected from the group consisting of cellulases, lipases, endoglucosidase H, carbohydrases, reductases, oxidases, isomerases, transferases, kinases, and phosphatases, wherein said kinase is not streptokinase, and said polypeptide of interest comprises a T-cell epitope,

wherein said variant differs from said polypeptide of interest by having an altered T-cell epitope such that one or more amino acid residues of the T-cell epitope are altered and

wherein an allergenic immunogenic response produced by said variant in an individual is less than said allergenic immunogenic response produced by said polypeptide of interest.
